

MESSAGE TEMPLATES

Get the right words out faster, more effectively!

Hyper-Reach Message Templates enable message originators to create clear, consistent messages quickly and easily.

With Message Templates, any alert originator can meet best practice standards without extensive training.

Hyper-Reach Message Templates:

1. Create and save templates for any message scenario: from boil water to nuclear attack.
2. Customized fields allow unlimited flexibility in message creation.
3. Each field creates its own prompt for information to fill in.
4. Create unlimited template variations if required.
5. Make as many templates as you need - no limits.
6. Preview window shows exactly what the finished message will look and sound like.
7. Message Manager library makes templates easy to retrieve and use.
